

EPSON STYLUS PRO 3880

EPSON STYLUS PRO 3880

The professional A2+ large format printer that's compact enough to fit easily on your desktop. Print superb, long-lasting photos in colour and black and white on a range of media with Epson UltraChrome K3 Ink with Vivid Magenta.

Epson UltraChrome K3 Ink with Vivid Magenta uses 9 pigment inks to give your prints a very wide colour gamut and exceptional light fastness. Three levels of black deliver a perfectly balanced grey scale and smooth tonal gradations, and auto-switching between optimised photo and matte black gives you the best results on your chosen media.

Produce borderless photos from 4" up to 17" wide and any length you define, up to 37.4". Print on a wide variety of photo, fine art and proofing media, and add flexibility with three cut-sheet paper paths that handle media and posterboard up to 1.5 mm in thickness. This is perfect for POS applications and with the compact footprint retailers can easily fit this printer in store or office.

The Epson Stylus Pro 3880 is also ideal for remote proofing. Prints are so consistent that you can sign-off proofs quickly, certain that what you see is what you will get in the final print run.

With the excellent colour stability and light fastness of Epson UltraChrome K3 Ink with Vivid Magenta, you can create long-lasting prints to sell or exhibit. Exceptional accuracy ensures that each reprint will match the first, even if printed months apart.

- Large format printer with a very small footprint
- Ideal for photo, fine art, proofing and POS prints
- Supports a wide range of cut-sheet media up to 1.5 mm in thickness
- Very wide colour gamut with vibrant blues and purples
- Produces excellent black and white images with three levels of black
- Optimised inks for matte and gloss media
- Large 80 ml individual ink cartridges for increased productivity
